Estimating: Fast, accurate, flexible estimating

Quantum Project Manager's Estimating program enables you to quickly and easily create estimates for your projects in a variety of ways. The Estimating program was developed with the flexibility to allow a user to create a simple estimate with basic information or a more detailed estimate based on more complex conditions and calculations.

Whether you're creating a simple estimate or a very detailed estimate, Quantum Project Manager lets you add various markups, tax situations, bond allocations, etc. Plus, you can change these in a snap to analyze different scenarios for your proposal in seconds. You can copy previous proposals from other projects to edit and quickly create a new proposal. You can even have several different proposals for the same job.

The Estimating program allows you to print reports that are as simple or as detailed as you need—from a basic summary estimate to reports that provide for every line item in detail. Group the totals on these reports at several different levels. You can also generate proposals in a number of formats with options to allow for outstanding flexibility. You can also create PDF or RTF files giving you the capability to easily email the files or even make additional changes in another program like your word processor.

The Quantum Project Manager Suite
Flexible, easy-to-use tools for serious contractors

The Quantum Project Manager Suite was engineered to manage and track all of your project needs with ease. With Quantum Project Manager, you can produce estimates and bid proposals for a project, complete contract documents, generate progress billing payment applications, print certified payroll reports, manage your equipment and vehicles and create and track all of your communications along the way—all with one simple, easy-to-use tool. And while the Quantum Project Manager programs are designed to work together, each program can be used independently. The program supports multiple users on a network, has password security options, and includes a backup/restore program. You can also install the program on a cloud server that supports Windows Desktop hosting. Contact us for more information.

Bottom line: The Quantum Project Manager Suite provides serious tools for serious contractors. For more information, visit www.quantumss.com, email sales@quantumss.com or call **800-894-1278**.
