Equipment Tracking – Made Easy

This program is designed to automate your equipment and vehicle tracking records. The program will record and schedule your maintenance, warranty, purchase, sales, insurance, training, registration, inspection, mileage/hours, location and assignment information, making monitoring your equipment operations a snap. There are many useful reports included. Track your vehicle mileage, fuel costs and gallons used as well as other expenses. Using this program will result in saving countless hours of manual reporting. You quickly and easily have all your equipment information at your fingertips and can easily print it out. You can use it standalone on a single PC, with multiple users on a network or on a cloud server. Contact us for more information.

Automate your equipment management system. Monitor operating costs & schedule future maintenance with this flexible easy to use program. Track your maintenance history and all your equipment information in one place. Enter maintenance requests, review and approve requests to generate work orders, and schedule upcoming or enter completed maintenance activity. Track equipment information and assign equipment to locations, supervisors and projects. Track odometer or hours readings and schedule maintenance by date or miles/hours. Track parts used and labor required for work orders, and even enter fuel consumption and costs. Comply with OSHA requirements to create and print "Lock Out/Tag Out Procedures" and track your training records for all your equipment. Track your vehicle usage and print mileage reports, trip logs, state mileage reports and other cost reports. Numerous other reports are available. No more manual logs to keep!

The Quantum Project Manager Suite

Flexible, easy-to-use tools for serious contractors

The Quantum Project Manager Suite was engineered to manage and track all of your project needs with ease. With Quantum Project Manager, you can produce estimates and bid proposals for a project, complete contract documents, generate progress billing payment applications, print certified payroll reports, track your equipment usage and expenses and create and track all of your communications along the way—all with one simple, easy-to-use tool. And while the Quantum Project Manager programs are designed to work together, each program can be used independently. The program supports multiple users on a network, has password security options, and includes a backup/restore program. You can also install the program on a cloud server that supports Windows Desktop hosting. Contact us for more information.

Bottom line: The Quantum Project Manager Suite provides serious tools for serious contractors. For more information, visit www.quantumss.com, email sales@quantumss.com or call 800-894-1278.

Includes free phone support and training for one year, a 60-day money back guarantee and 2 user licenses.
